

The Vibrant Voyager: OEM Army Knife SS-0836 – A Symphony of Color and Craftsmanship

Introducing the [OEM](#) Army Knife SS-0836, a masterpiece forged by Sheldon Manufacturing & Trading Combo, tailored for the discerning individual who values not only function but also aesthetic appeal in their toolkit. This 11-in-1 stainless steel wonder is an embodiment of excellence, crafted to deliver a spectrum of colorful utility and designed to cater to a diverse range of cutting, sawing, and fixing needs.

Product Description: The OEM Army Knife SS-0836

The OEM Army Knife SS-0836 stands out in the market as a beacon of quality and versatility. With a sturdy main body made of 2CR13 stainless steel, it demonstrates endurance and resilience. Coupled with a friction stainless steel handle, the SS-0836 ensures a secure grip, reducing slippage and enhancing safety.

Compact in design, the knife's closed length of 3.66 inches blossoms to an opened length of 6.1 inches, revealing a suite of tools engineered for precision and accessibility. While the total thickness of 0.59 inches and a width of 0.91 inches offer a slim profile, the knife's weight of 3.49 ounces (99g) balances the heft needed for robust tasks with the lightness desired for transport.

A Palette of Possibilities: Colorful Handles and Satin Finish

The SS-0836's handle is not just built for function; it's a canvas of color. With the primary offering in a vibrant red, additional color options customize the look to suit any style. The tinting process not only adds visual appeal but also increases durability, ensuring that the handle's color remains vivid through years of use. The main body's satin finish provides a sleek backdrop, complementing the handle's tinted allure and creating an overall appearance of refined craftsmanship.

Multifunctionality at its Finest: 11 Tools in One

The SS-0836 boasts an impressive array of 11 tools, thoughtfully integrated into one seamless design:

1. **Knife Blade:** A sharp, reliable blade suitable for all cutting tasks.
2. **Wood Saw:** Teeth designed for efficient sawing through wood with ease.
3. **Scissors:** Perfect for cutting through fabric or trimming small objects.
4. **Bottle Opener:** No cap is a match for this sturdy and effective opener.
5. **Can Opener:** Access canned goods quickly, essential for camping or emergency situations.
6. **Phillips Screwdriver:** The go-to tool for common screw types, ideal for on-the-fly fixes.
7. **Needle:** Handy for piercing leather, canvas, or even for emergency repairs.
8. **Corkscrew:** A traditionalist's tool for opening wine bottles, a staple for collectors.
9. **Nail File:** Maintain manicured hands even in the great outdoors.
10. **Nail Cleaner:** Hygiene is handy with this dedicated cleaner.

11. **Ice Breaker:** Not just for breaking the ice at parties, but literally tackling solid ice.

The OEM Advantage: Customization and Bulk Sale

With an [Original Design Manufacturing](#) (ODM) Regular Minimum Order Quantity (MOQ) of 3000 units, the SS-0836 is positioned as an ideal choice for bulk purchase. Businesses can tailor the knife to their branding needs, selecting from the wide range of color options and adding logos or messages via the tinting process to create a personalized gift or product offering.

Ideal Gift: The Ultimate Expression of Thoughtfulness

The OEM Army Knife SS-0836 is the gift that keeps on giving. Whether it's for corporate gifting, personal milestones, or as a token of appreciation, this army knife is sure to leave a lasting impression. The combination of utility and unique design makes it a standout present that will be treasured and used frequently.

Market Appeal: A Multitude of Uses

The SS-0836 is designed for a wide array of activities and users. From the everyday DIY enthusiast who requires a reliable tool within arm's reach to the outdoor adventurer seeking a trustworthy companion for the wilderness, this army knife serves all purposes. It is also an essential addition to any emergency kit, providing peace of mind with its practicality and functionality.

Quality Assurance: Shieldon's Commitment to Excellence

Shieldon Manufacturing & Trading Combo is committed to delivering products of the highest caliber. Each SS-0836 army knife undergoes rigorous quality checks, ensuring that the tool not only meets but surpasses industry standards in durability, functionality, and design.

In Summary

The OEM Army Knife SS-0836 is more than just a tool; it's a versatile companion, an expression of identity, and a symbol of preparedness. Its sleek design, coupled with its vibrant colors and multifunctionality, makes it an essential addition to anyone's personal collection or product inventory. For those looking to make a bulk purchase, the SS-0836 promises not just volume but also the satisfaction of providing a product that is as useful as it is beautiful. Embrace the Vibrant Voyager, and let the OEM Army Knife SS-0836 be the colorful companion on your next adventure or the memorable gift that stands out from the rest.

Can I bring an army knife on an airplane or a train?

When it comes to traveling with an army knife, the rules and regulations can vary significantly depending on the mode of transportation - specifically airplanes and trains. Understanding these regulations is crucial for any traveler who wishes to carry an army knife during their journey.

Air Travel with an Army Knife

Air travel is subject to the most stringent regulations regarding what items can be brought on board an aircraft. The governing body that sets these rules in the United States is the Transportation Security Administration (TSA). According to TSA guidelines, sharp objects such as army knives are not allowed in carry-on baggage. If you attempt to pass through security with an army knife in your carry-on, it will be confiscated.

However, there is an alternative. Travelers can pack army knives in their checked luggage. This means the knife will be stored in the plane's cargo hold, and you will not have access to it during the flight. It's essential to pack your army knife securely to prevent any accidents or damage to your luggage and its contents. Also, the rules aren't universal; regulations may differ from one country to another. It's always best to check with the specific airline and the aviation authority of the country you're flying from or to before packing your army knife.

Train Travel with an Army Knife

Train travel often has more relaxed rules than air travel, but it still varies by country and rail company. In the United States, Amtrak allows passengers to bring knives with blades shorter than 4 inches in their carry-on bags. However, like air travel, it's always safer to pack your army knife in your checked luggage to avoid any issues during security screenings.

In Europe, the rules can differ between countries and rail services. For example, Eurostar has a no-knife policy similar to the airlines, prohibiting passengers from carrying knives of any length in their carry-on bags. Other European rail services might be more lenient, but again, it's best to check their specific baggage policies before you travel.

Tips for Traveling with an [Army Knife](#)

1. **Check Regulations Ahead of Time:** Before you pack, ensure you've checked the latest regulations of the airline or rail service you're using.
2. **Pack in Checked Luggage for Flights:** If you're flying, place your army knife in your checked luggage to avoid confiscation.
3. **Secure Your Knife:** When packing your army knife, make sure it's sheathed or wrapped securely to prevent injury or damage to your luggage.
4. **Consider Mail or Shipping Services:** If you're unable to pack your army knife or don't want to check a bag, consider mailing it to your destination ahead of time.
5. **Be Prepared to Explain:** If you're carrying an army knife in your checked luggage on a train, be prepared to explain why you have it if asked by security or train personnel.
6. **Consider a Travel-Specific Tool:** If you frequently need tools while traveling, consider a travel-specific tool that includes functions you need but doesn't have a blade, or that comes with a blade shorter than the regulated length.
7. **International Travel:** If you're traveling internationally, be aware that different countries have different laws concerning the possession of knives. Always research and respect local laws to avoid legal issues.

- 8. Remember the Purpose of the Restrictions:** These regulations are in place for the safety of all passengers. Even if you don't agree with them, it's important to adhere to them.

Summary

Army knives are versatile tools that many of us find indispensable, but they can cause complications when traveling. For air travel, the rules are pretty clear-cut: no army knives in your carry-on luggage. For train travel, regulations are more variable and require checking with the specific carrier. By being informed and planning, you can ensure that your army knife is waiting for you at your destination, avoiding the inconvenience and potential loss of having it confiscated. Always prioritize safety and compliance with the rules to ensure a smooth and hassle-free travel experience.
